Dedication

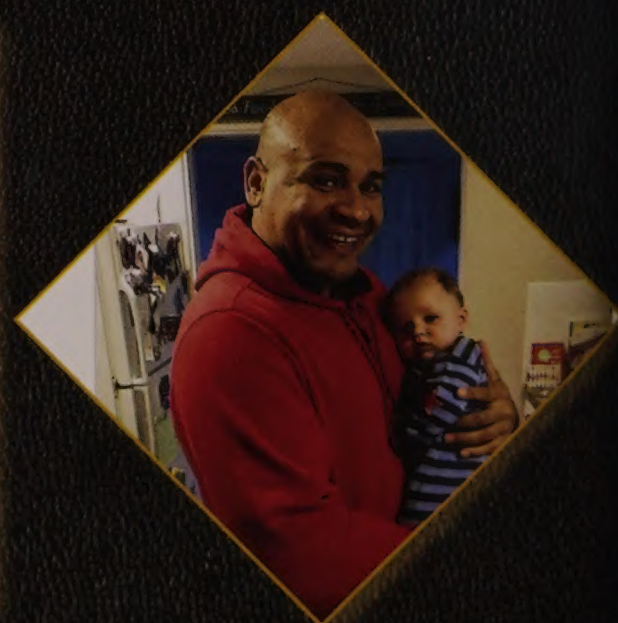

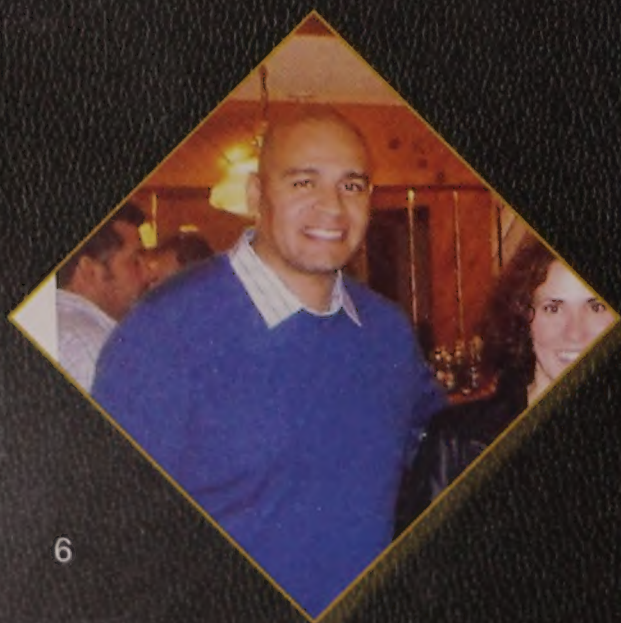

A mediocre teacher tells.
A good teacher explains.
The superior teacher
demonstrates.
The great teacher inspires.

~William Arthur Ward.

Mr. Eddie Polk

Since 2002, Mr. Polk has been more than a teacher at East Longmeadow High School. He has not only taught but also created classes solely based on his passion for inspiring children. His students have made close and personal connections with him in his classes and in the Multicultural Club, which he created. He has worked tirelessly to educate students academically as well as culturally and civically. He has always challenged his students to do their best and, above all, to become informed and independent thinkers. In return, his students have come to know him as an inspirational teacher as well as a trusted friend.

His sincerity and devotion have earned him the love and respect of students and staff alike. For these reasons, and many others, the Class of 2018 dedicates this year's Aegis to their beloved teacher, Mr. Eddie Polk.

.....AND NOW YOUR JOURNEY BEGINS.

Congrats Wyatt William Garber!

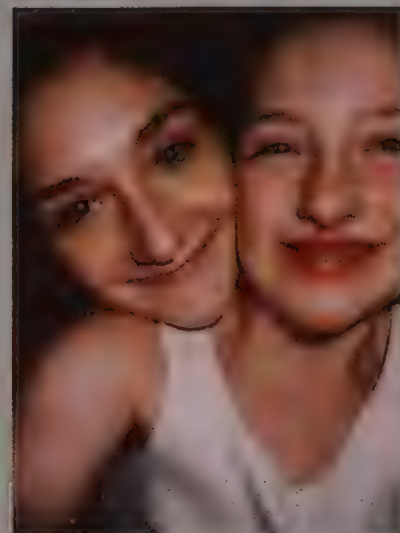

Far before you were born we knew your name was going to be after the great legend who was both a gunslinger and a lawman of the great West, "Wyatt Earp". As history is great, so too is the future. You've never been a follower.

Your nickname has truly been, "Tenacious". You've challenged your mind to already be successful at the violin, chess, as an inventor, robot builder, disc golf, skiing, frisbee, rock climber, archer, and eagle scout. Carl Sagan has given you and all of humanity a great gift with his poignant description of "The Pale Blue Dot" photograph. Space has been calling you for eighteen years. Don't let anyone tell you, "The Sky's the limit", go past the Stratosphere and go explore Wyatt.....

We Love You,
Mom, Glenna, Papa, NASA & Daisy

Congratulations "MoMo"

We are so proud of the woman that you have become and the success you have achieved.

Dream Big & Go Far!

We love you!

Through various yearly activities, the student council seeks to promote a better understanding among students, faculty, administration, and the community and to increase school spirit. Our tasks vary from organizing Spirit Week to Teacher Appreciation day; class elections to freshman orientation. We actively seek input from all members of the school community to improve our mission.

The ELHS Chapter of the National Honors Society consists of a group of students who are committed to learning and have a willingness to serve others. Members lead others by example and demonstrate the moral character necessary to benefit society as a whole. Students in National Honors Society must show scholarship, leadership, service, and character. NHS offers tutoring for other students in need and fundraises for organizations in order to make a difference in their own community. This year, they sponsored a "Be the Match" event to find bone marrow donors.

Writing Club is an organization consisting of a group of individuals striving to creatively express whatever it is they wish. Dogs, death, dictators, and dollars all find their way into the Literary Magazine, published biannually. Meetings, essentially an uninterrupted series of plot twists, range from sessions of silent writing to prompt brainstorming to round-robin style storytelling. Whether you enjoy optimistic, uplifting poetry or dark, foreboding sci-fi, a seat awaits you at the table of unfortunate ideas.

A pink ribbon symbolizes breast cancer awareness. This year the Pink Ribbon club meets on Thursdays at 2:00. The club was created to heighten awareness and to raise money for breast cancer research. The club was and still is currently advised by Ms. Renear. The club traditionally volunteers at the Rays of Hope walk each year. Both the Pink Ribbon and Key Club members team up to attend this event. The club members also help with any other jobs that make the walk a success. Although October is an important month for the club, we still do fundraisers throughout the year to raise money to donate. All students are welcome to join!

Kristin Nordin

The ideal peer educator is a guide, an older student who's a reassuring model for students who feel unsure in making decisions about alcohol and drugs. The use of peer educators is based on the belief that some students better relate to each other than with adults who may not be as comfortable discussing these issues. The essential part of being a peer educator is being able to be an effective communicator and leader. They interact with the community, educating the dangers of destructive behavior.

It's almost impossible to go through four years at ELHS without noticing the band. Whether we're freezing our tails off on Thanksgiving, looking spiffy for concerts, losing our hearing during the pep rally, or marching through the July heat, the band is always spreading the Spartan spirit. This year has been a blast like any other, and the great memories continue to accumulate. With Mr. Kiernan at the helm, we play anything from super hero themes, to faithful classics, to Led Zeppelin!

If you're looking for energy, determination, hard work, and a good time, you needn't look any further than the auditorium during G-block. It's this fabulous group of students that can make any typical day at ELHS extraordinary.

The club offers the opportunity to be a part of all aspects of theater production from sound and lighting on the technical side to acting on stage or working behind the scenes as part of the backstage crew or assisting with direction. Medical Science Club is for those who have an interest in the medical or science fields. The purpose of this club is also to organize students who are interested in pursuing a career in any field of medicine. In this club the students will get the chance to learn some techniques from guest speakers in the medical field, informational videos, or hands-on activities. This is also a group where we have focused discussions keying in on making students aware of medical issues arising in the community. Debating controversial topics in the medical field, such as physician-assisted suicide or the effects of GMOs also provide ways for students to get to know more about science and medicine in the world around them.

The Newspaper is a curriculum that focuses on writing various types of journalistic articles.

Multiple skills are practiced and implemented when interviewing for inclusion in journalism articles. Students must create written pieces using proper articulation and form; format the paper using the InDesign Cs2 software; obtain advertisements, which provide funds for printing of the paper; and end up with several editions of the paper that are printed, as well as a full-color paper dedicated to the senior class. In order to be aware of community and world events, current events are conducted on a daily basis and can be the focus of a written article. Guest speakers, as well as field trips, may be included in the course.

The girls' varsity soccer team didn't end the way they wished, but their season was filled with many successes and memories that they'll never forget. Hearing, "entrance to the end zone," every day was just one of those things. "I couldn't ask for a better group of girls to spend my last season with," said senior Ashley Corcoran. "Even though the season didn't turn out the way we had hoped, we always worked hard," said senior Maeve Caine.

This year's varsity team was made up of 11 players who gave everything they had to compete at the highest level of soccer in Western Mass. Our captains, Regan Held, Tyler Dumas and Matt LaMondia were not only great players but great leaders both on and off the field. The team played much better than their 4-11-3 record showed. This team was a close knit group with a great attitude that never gave up on each other and we have a strong group of younger players who played far beyond their years and will lead us next season.

ELGVVB2K17 was one to remember. We had a strong team and surprised a lot of teams by how much our skills have improved over the years. Although we started off rocky in the beginning with only having 6 returning varsity players, everyone really pulled through in the end. This year was the first year in 4 years that we actually made it to playoffs and had players nominated for the All-Star team. Although our overall record didn't reflect our team, we went 5-3 in our league.

The 2017 XC season was a memorable one, filled with adventures and Sebastien quotes. Highlights included trips to "ice baths," pasta parties, multiple encounters with Mr. Potato Head, the Grassy Grotto, the Chicopee State Park swim, the monsoon during senior night, and the climb up Northfield Mountain when Fois danced to "Bounce Back." The freshmen were exceptional additions to the team-talented runners, and more importantly, fantastic frisbee players. With huge time improvements and wild memories, this season will go down in the (Maller) history books as a great one.

This was supposed to be a rebuilding year but we wouldn't have traded it for the world. We surprised not only our fans but ourselves. We are especially thankful for Coach Angie and all of the time and effort she put into the team and for Katelyn stepping up to be our goalie. Thank you to the team for all the laughs and good memories.

Future Spotlight

Growing up, I had always been fascinated by photography and magazines. When I had turned 8, my mom bought me my first camera, which never left my hands. I fell in love with taking photos and loved the impact it had on sharing the moment. Photography was a way I could express myself in ways I wasn't able to explain. I've experimented with architectural, nature, pets, and portrait photography- I found that portraits were by far my favorite to do. Since I have started, I have gone on to book pet photos, family/senior portraits, engagements, proms, and weddings. I currently am working for Lithium Magazine as a photographer, had my photos published in Guided Magazine, Mim Zine, and Pinstripe Zine. I've gained public praise from popular blogs like GirlGaze, Obsesse, and Adolescent Content.

I was first introduced to modeling at a young age. My photos were advertised on the internet and I was contacted by agencies in New York and Boston who wanted to represent me. From that point I have had many jobs which included being in magazines, on billboards, and on game boxes. I am on multiple Nerf Rebelle game boxes, I was also offered this opportunity when Hasbro picked me from my agency in Boston to represent them. There are so many different paths within modeling and I was lucky to experience both runway and commercial print. I'm very fortunate to have had these opportunities in the modeling industry and am excited to see what else is in store for the future. My advice to aspiring models would be to always be yourself in front of the camera, when you're truly having fun with what you do, it will make the images more meaningful to you as well as more captivating for viewers. Emotion tells your story!

When I was in middle school, I took sewing lessons and have sewn and created clothing ever since. I have attended LPVEC for three years for fashion technology and I have pursued every available opportunity since then. For example, I am on the fashion show staff meeting with models and coordinating with retailers for the committee for Unify Against Bullying. After high school graduation, I am pursuing my Bachelor Of Fine Arts in Fashion Design at Syracuse University. My advice to anyone interested in the fashion design industry is to stop worrying about other people's designs! Dare to be different because fashion is an art that necessitates new and innovative approaches. Fashion is about having an open mind!

Art is something I can really have fun with. Whether it be sculptures, paintings, doodles or whatever, I can make something unique and cool. My art isn't something that has some hidden meaning or a bigger picture, it's just what the picture depicts. The biggest appeal about art to me is that I can just make whatever weird monster or landscape I want, and then it becomes almost like a reality to me. Portraying my thoughts for everyone to see onto paper is a great feeling as it lets people see the real me. Along with everything else, for someone who has a lot of trouble communicating with other people, it's nice to have people compliment you on your work and talk about it with you.
